Hello

Having looked at the application and supporting evidence to vary the above premises license I recommend that the application variation be refused for the below reasons:

Given the location of the public house, which is attached to a residential property and backs directly onto a residential area, which includes halls for the King's School, I am concerned that granting permission for the Pelican Inn to operate until 3am Sunday-Wednesday and 4am Thursday-Saturday will cause nuisance to the residents. Due to the location of the pub and nature of the proposed activities i.e. live/recorded music I believe this will give rise to public nuisance.

The application variation includes late night refreshment both inside and outside the premises. The beer garden is located directly next to and beside two separate rows of residential properties. Again my concern is the congregation of patrons in the beer garden during the day/evening generating noise which the local residents would be sensitive too.

I trust this is of assistance please contact me if you wish to discuss further.

Regards
