**Subject:** Waiting time

Lisa,

Further to our conversation yesterday, the GHCA will not be seeking an increase in the rate for waiting time on this year's tariff rise. This situation will prevail for at least two years, but more likely for three, although a fourth year is possible if we stay in the median range of our neighbouring authorities.

Please let me know if there is any clarification required and also when you anticipate the notice to go in the local paper.

Zeya
