Good Afternoon Richard

I write with regard to the recent consultation on the Street Trading Consent for the hot food van at Pavillion 2, Olympus Park.

This van was granted planning permission to be sited at this location in July this year under planning reference 14/00648/FUL, and all planning considerations would have been addressed as part of this. I therefore raise no objection to the granting of this Street Trading License.

Kind Regards

Rich

I have some serious concerns over the above trading consent for a kebab van in Olympus Park until midnight. The community team have been dealing with a number of issues of Olympus Park of antisocial behaviour involving youths in cars, loud noise, and general ASB.

We have had a SARA plan set up for this issue which we managed to sort by the end of October 2014. This SARA plan documents partnership working, incidents and the community resident's complaints. I can sanitise it for our evidence to oppose this trading van in this area, as I know that it will attract antisocial behaviour again if it continues to trade until Midnight.

If you have any new template for objections please send it to me.

Hi Rich,

I have liaised with Sergeant Liz LOVELL who is in charge of policing the Quedgeley area community teams. She has viewed the email about the application for Street trading at Olympus Park in Quedgeley.

Sgt Lovell has spoken to me about her concerns and reservations with this application and has requested that I submit this for her.

Her team conduct what is known as a SARA plan in the Olympus Park area where the trading application has been requested.

SARA plans deal with areas where there are Police concerns and a build-up of a considerable amount of anti-social behaviour. This Plan deals specifically with all problems requiring action, including those identified by police (for example, using community intelligence) and those identified by community members as part of Neighbourhood Policing.

What are the problems?

Residents and Businesses around the Olympus park estate, Quedgeley are suffering from ASB from youths congregating with cars. They are causing noise and driving anti-socially during the evenings. Ball playing against shop windows making echoing noises to nearby estate.

The Police have received numerous phone calls from residents and staff at the businesses on the retail park and during recent House to House enquiries it is apparent that there is a recurring problem.

I consider that this application should be refused on the grounds that there is already serious anti-social behaviour in the area concerned. Residents are at boiling point already and any further businesses etc. that will introduce more noise and possibly ASB.

Please find a list of incidents highlighted on our SARA plan to date:

15/06/14 Incident 423-15/6/14

Local resident reporting 40plus cars outside Matalan in the car park, Police attended and no cars committing any offences so NFA

15/07/14 Incident 564-15/7/14

Local resident reporting cars in the carpark, youths playing football and playing loud music. No Police sent to incident.

16/07/14 Incident 501 -16/07/14-

Complaint of cars parked in Carpark again being loud- Police attended and spoke to the following vehicles who were not causing any noise. Group advised about noise complaints and stated that other drivers arrive usually later in the evening.

Also conducted a community consultation around the area closest to the Matalan location. Boots and two other neighbouring houses complaint of high noise levels at night.

18/9/14 Incident 62-18/9/14

Resident complaining that still an ongoing issue and is losing sleep. PS Lovell has advised that we need VRM's to take positive action.

PCSO Tunney conducted a small Community consultation with the closest 3 residents in HIGHLIFFE DRIVE, Quedgeley, & BOOTS Business premises in the Olympus business park. Complaints reach from loud music and boy racer behaviour (doughnuts and hand brake turns, excessive engine revving etc.) to ongoing ball playing against the buildings which echoes throughout the Trading estate to the annoyance of business and private residents. Drug dealing was also mentioned. This behaviour starts after about 19.30 and often carries on until the early morning. Residents have complaint of sleeping difficulties due to the ongoing ASB.

20/9/14 Incident 510-20/9/14

Report the vehicles are back in the car park causing a nuisance.

PCSO Lee attended- there were approx. 8 cars at the location all parked up in the car park in the front car park outside Matalan. There was no music being played at the time and those individuals there stated that none of the cars had been playing music.

All those present were advised with ref to the complaints we are getting and asked to move to a more suitable location.

21/9/14 Incident 475-21/9/14

Report of vehicles in the carpark and occupants playing football.

Police attend but AIO

23/9/14 Incident 467-23/9/14 & 571-22/9

Report of VRM's that have been in the carpark:

Vehicle info restricted

3/10/14 Facebook -Spotted Quedgeley,KINGSWAY,HARDWICKE-

In response to the 2 posts regarding the youths in a car park causing an issue. When for the past 3 month you've been kept awake until 1am with their stupidly loud music and general behaviour when your home is a stone's throw away it wears thin after a while. I confronted the kids about the noise and yet they still carried on, so yes I took all their Regs. and kept reporting it to the police every night

This post alone had 71 likes and 30plus comments from members of the community and alleged offenders

3/10/14 Facebook Spotted,Quedgeley,Kingsway,hardwicke-

Please post

I don't see why so many people don't understand why lads and ladies meet up in their cars in car parks .. I mean it's pretty simple they are car mad and want to socialise with their car mad friends while stood with their car and seeing as a car park is where you park your car it's a pretty obvious place.. it's just like going for a drink at the pub to talk with your mates this just happens to be in a car park

This post only generated a couple of likes and a couple of comments, but was posted the same day as the above comment

5/10/14 SC HOWE & SC O'BRIEN- Whilst out patrolling came across a group of youths (with cars) in the car park at Hardwicke village hall. They were not causing any trouble but were previously known to have hung around at the back of Matalan. They stated they had been avoiding Matalan as they were aware that there had been complaints about noise/trouble at that location (which they claim is nothing to do with them).

Later checked the car park at Matalan and there were no cars or people, other than two employees of Boots. They said the problems had died down of late and they would notice if there were people there, as they are often working late. One referred to the comments on social media about problems in the area and was surprised that people felt it was such a problem, as they are right next to it and have no immediate concerns.

28/9/14 PCSO TUNNEY- Patrols conducted- AIO

6/10/14 PCSO TUNNEY- Patrols of carpark at approximately 2030hrs, only one van in the carpark but un-occupied. AIO

07/10/2014 Incident 277-07/10/2014 reported by Matalan manager ref. youth parked up at rear car park on the night of the 06/10/ approx.. 2100 hrs. This morning 7 boxes of CO2 chargers were found at the location. I was asked to collect them as they were lying in the road. On my arrival however they had already been removed. (PB311)

07/10/2014 PB 307 & 311 Patrol of Boots and Matalan car parks front & rear. All ok. Approx. 19. 30 hrs.

Hi Richard

With reference to your e-mail received on 9th December in relation to street trading licence for Sahin Kudret, Quedgeley Parish Council fully support the concerns raised by the Local Police and would support the application being denied.
