7.0 Financial Implications

7.1 There are no direct financial implications arising from this report. However, the writing of a policy document would require staffing resources.

(Financial Services have been consulted in the preparation this report).

8.0 Legal Implications

8.1 There are a number of legal issues associated with the parcels of land referred to as 'unadopted green land' in Appendix 1, some of which are alluded to in the report. These legal issues will need to be identified and taken into account when the Policy referred to is drafted.

8.2 Examples of legal issues are firstly the time these 'unadopted green land' areas have existed in their present state, and whether or not they have been used by the public for at least 20 years giving prescriptive rights. Secondly, the legal title to the land needs to be investigated and whether or not there are any covenants by deed that place a maintenance responsibility on the title holder. Thirdly, the National Planning Policy Framework where it is possible to designate green spaces as Special Protected Areas to protect the areas from future development needs to be looked into. These are just three examples of legal issues, but there may be more.

(Legal Services have been consulted in the preparation of this report).
