Attachments: Re: 5-7 Brunswick Road-Licensing App; Report form-5-7 Brunswick Road.docx

Hi Rich,

Please see attached form advising that I recommend approval to this Licensing Application at 5-7 Brunswick Road subject to conditions being attached. Please also see attached email from applicant advising that he is happy with conditions.

Any problems, please give me a shout.

Cheers,
Al

Subject: 5-7 Brunswick Road-Licensing App

Hi Alex

I have no problem with those conditions, and is something we totally agree with and have discussed. Thanks for your time today , and hopefully you will all join us on opening night if successful planning.

Regards
Paul

Paul/ Keith,

Once again thank you for taking the time to show myself and Richard around this morning. As advised I would just like to add the conditions offered up in your application (below) to the license and then I'd be happy to recommend approval.

- For a period of 30 minutes following the closure of the venue bar, or until all customers have dispersed from the immediate vicinity, at least half of the door supervisors shall patrol immediately outside the premise wearing high visibility clothing to ensure the safe, orderly and quiet dispersal of customers in the immediate vicinity.
- A 'winding down and dispersal' policy shall be adopted that includes measures to achieve a gradual and orderly dispersal of customers at the end of a trading session. These measures shall commence at least 30 minutes before the bar closes, and shall include the slowing down the tempo of music, a reduction in the volume of music (gradually reducing to a background level) and announcements by DJ or entertainers (on occasions they are used) requesting customers to leave the premises quietly and respect the peace and quiet of local residents. Both the front doors onto Brunswick Road as well as the side doors onto Jennings Walk will be utilised when closing to assist dispersal.
- After 23:00 hours, all external doors and windows in areas where any live or recorded entertainment (other than low level background music) occurs shall be kept shut during these activities (except in the case of an emergency, or momentarily in the case of the main front access door).
- The DPS shall ensure effective overall management of music volume, such as monitoring noise levels outside the premises, to ensure that noise from such activities is inaudible inside nearby noise sensitive premises.
- The DPS shall take measures to ensure that noise levels from customers shall not be clearly audible in any nearby noise sensitive property, these measures may include the use of signs, limiting smokers at any one time in the enclosed outdoors area, warning noisy customers that the right to re-admission may be withdrawn etc.

Please could you confirm that you agree to these condition going onto the license so that I can complete my representation.

Kind Regards,
Alex
