## PART 5: ACTION PLAN

### Introduction

The site-by-site action plan list seeks to address key issues identified in the accompanying Assessment Report. It provides recommendations based on current levels of usage, quality and future demand, as well as the potential of each site for enhancement.

It should be reviewed in the light of staff and financial resources in order to prioritise support for strategically significant provision and provision that other providers are less likely to make. Recommendation e below explains the hierarchy of priorities on the list. It is imperative that action plans for priority projects should be developed through the implementation of the strategy.

The Council should make it a high priority to work with NGBs and other partners to comprise a priority list of actions based on local priorities, NGB priorities and available funding.

### **Recommendation e - Adopt a tiered hierarchy of provision to help prioritise investment and improvement of sites**

To allow for facility developments to be prioritised and programmed within a phased approach a tiered model to for the improvement of playing pitch sites and associated facilities is useful.

The identification of sites is based on their strategic importance in a City-wide context i.e. they accommodate the majority of demand or the recommended action has the greatest impact on addressing shortfalls identified either on a sport by sport basis or across the City as a whole.

#### *Gloucester's tiered site criteria*

Hub sites	Key centres	Local sites	Reserve sites
Strategically located. Priority sites for NGB.	Strategically located within the analysis area.	Serves the local community. Likely to include education sites.	Serves the local community.
Accommodates three or more good quality grass pitches. Including provision of at least one AGP.	Accommodates two or more good quality grass pitches.	Accommodates more than one pitch.	Likely to be single-pitch site.
Single or multi-sport provision. Could also operate as a central venue.	Single or multi-sport provision. Could also operate as a central venue.	Single or multi-sport provision.	Supports informal usage and/ or training etc.

## PLAYING PITCH STRATEGY

---

**Hub sites** are of City wide importance where users are willing to travel to access the range and high quality of facilities offered and are likely to be multi sport. These have been identified on the basis of high impact on addressing the issues identified in the assessment.

The financial, social and sporting benefits which can be achieved through development of strategic sites (also known as hub sites) are significant. Sport England provides further guidance on the development of community sports hubs at:

[http://www.sportengland.org/facilities\\_planning/planning\\_tools\\_and\\_guidance/sports\\_hubs.aspx](http://www.sportengland.org/facilities_planning/planning_tools_and_guidance/sports_hubs.aspx)

For hub sites, NGB financial modelling suggests that multi 3G pitch sites are more sustainable in the longer term. However, the only existing site which is likely to be able to accommodate a double 3G pitch site is Plock Court/ University of Gloucester.

**Key centres** although these sites are more community focused, some are still likely to service a wider analysis area (or slightly wider). However, there may be more of a focus on a specific sport i.e. a dedicated site.

It is considered that some financial investment will be necessary to improve the ancillary facilities at both Hub sites and Key Centres to complement the pitches in terms of access, flexibility (i.e. single-sex changing if necessary), quality and that they meet the rules and regulations of local competitions.

**Local sites** refer to those sites which are generally one and two pitch sites and may be Council owned hired to clubs for a season or are sites which have been leased on a long-term basis. However, they are also likely to be private club sites serving one particular sport.

The level of priority attached to them for Council-generated investment may be relatively low and consideration should be given, on a site-by-site basis, to the feasibility of a club taking a long-term lease on the site (if not already present), in order that external funding can be sought.

It is possible that sites could be included in this tier which are not currently hired or leased to a club, but have the potential to be leased to a suitable club. NGBs would expect the facility to be transferred in an adequate condition that the club can maintain. In the longer term, the Club should be in a position to source external funding to improve/extend the facilities.

**Reserve sites** could be used as overspill for neighbouring sites and/or for summer matches/competitions, training or informal play. They are most likely to be single-pitch sites with no ancillary facilities.

### Management and development

The following issues should be considered when undertaking sports related site development or enhancement:

- ◀ Financial viability.
- ◀ Security of tenure.
- ◀ Planning permission requirements and any foreseen difficulties in securing permission.
- ◀ Adequacy of existing finances to maintain existing sites.
- ◀ Business Plan/Masterplan – including financial package for creation of new provision where need has been identified.
- ◀ Analysis of the possibility of shared site management opportunities.

# GLOUCESTER PLAYING PITCH STRATEGY

---

- ◀ The availability of opportunities to lease sites to external organisations.
- ◀ Options to assist community groups to gain funding to enhance existing provision.
- ◀ Negotiation with landowners to increase access to private strategic sites.
- ◀ Availability of funding for hub site development.
- ◀ Impact on all sports that use a site regardless of the sport that is the subject of enhancements.

## **Action plan**

### **Partners**

The column indicating Partners refers to the main organisation that the Council will liaise with in helping to deliver the actions. The next stage in the development of the action plan will be to agree a Lead Partner to help deliver the actions.

### **Priority level**

In addition to determining where the site sits within the tiered hierarchy of provision, the level of priority should be determined. For example, a Hub Site is likely to have a high priority attached unless for example it is already established and therefore may have a low priority. A local private cricket or rugby club could have anything from high priority to low priority attached to it depending on a number of factors such as NGB priority and the impact the recommendation will have on addressing shortfalls/issues identified.

**High** priority sites have City wide importance and have been identified on the basis of the impact that the site will have on addressing the key issues identified in the assessment.

**Medium** priority and have analysis area importance and have been identified on the basis of the impact that the site will have on addressing the issues identified in the assessment.

**Low** priority sites have been identified on a site by site basis as issues appertaining to individual sites but that may also contribute to addressing the issues identified in the assessment.

### **Costs**

The strategic actions have also been ranked as low, medium or high based on cost. The brackets in which these sit are:

(L) -Low - less than £50k; (M) -Medium - £50k-£250k; (H) -High £250k and above. These are based on Sport England's estimated facility costs which can be found at [www.sportengland.org/media/198443/facility-costs-4q13.pdf](http://www.sportengland.org/media/198443/facility-costs-4q13.pdf)

### **Timescales**

The action plan has been created to be delivered over a ten year period. The information within the Assessment Report, Strategy and Action Plan will require updating as developments occur. The timescales relate to delivery times and are not priority based.

**Timescales: (S) -Short (1-2 years); (M) - Medium (3-5 years); (L) - Long (6+ years).**

### **Aim**

Each action seeks to meet at least one of the three aims of the Strategy; **Enhance, Provide, Protect.**

## Site ID

Please note that although allocated Site ID numbers most often run in chronological order there are instances where numbers are missing. This is due to where pitches/sites are now no longer used or have been removed due to duplication.

Please also refer to Appendix Six for sport by sport maps of provision which are taken from the Assessment Report.
