This is a new application for an addition Licensed premises in Eastgate Street Gloucester, The property is currently a children’s nursery and the request is to turn the building into a licensed bar which would have a capacity of over 200 persons. The underlying concern and the basis for the police objection to this licence is simply the fact that there will be a great many extra persons frequenting the premises and thus by their presence contribute to the disorder and violence that occurs at this locality every weekend.

Levels of Crime and Disorder and public nuisance are extremely high in Eastgate Street particularly during the early hours of Saturday and Sunday mornings during the dispersal of nightclubs and late night refreshment venues. The street is regularly the location of conflict when venues close and persons of varying age, culture and diversity meet, many of whom are intoxicated.

This area has the highest number of assaults on police in the county, highest crime and disorder and public nuisance and the highest number of incidents of any street.

The Constabulary have worked and continue to work very closely with venues situated in this area to promote the licensing objectives. Offsetting dispersal times, voluntary agreements and in some cases imposing conditions to reduce crime and disorder. Any additional licenced premises in this area will have an adverse effect on crime and disorder and public nuisance .The impact this could have on the community and the image of Gloucester would be great

The Gloucester City Licensing Policy.

Paragraph 4.14 of the Licensing Authority's current statement of licensing Policy states. -

The licensing Authority wishes to ensure that these adverse effects are avoided and to this end has adopted a 'Special Policy' for an area around Eastgate Street where there is a concentration of licensed premises. Where applicants are applying for a new licence in this area it is recommended that they clearly state in their operating schedule how they will ensure that their premises does not add to the cumulative impact in respect of two of the licensing objectives , prevention of crime and disorder and prevention of nuisance .

Paragraph 4.18 states:-

The effect of adopting this policy is to create a rebuttable presumption that applications for new premises licence ,club premise certificates or material variations will normally be refused, if relevant representations to this effect are received ,unless it can be demonstrated that the operation of the premises involved will not add to the cumulative impact already experienced

The saturation of the area is such that determining which venues may bear some responsibility for the on-street issues is practically impossible and means that they cannot be dealt with by way of review or enforcement meetings. Therefore a strong 'Special Policy' area is imperative to prevent already existing venues extending their licensable hours and prevent further premises being granted in that area which would add to the considerable impact already being felt.

I produce

- 1) The crime and disorder figures for this area. – Appendix 1 and 2 (supported by incident print

outs – Appendix 3 and 4

2) A map showing the number and name of licensed premises in the area. – Appendix 5

**Please suggest suitable conditions that the committee could add to the licence (if granted) to remedy your concerns or if agreed in advance of a hearing by the applicant would allow you to withdraw your representation or enter details of any other matters, not commented on elsewhere relating to your representation that you would like the committee to take into account.
(Please continue on a separate sheet if necessary).**

Opening hours - Licensable activity restricted to 0200 hrs
No outside activity after 2300 hrs.
