

KEY	
	= Building elements to be demolished
	= Building elements to be altered
	= Building elements to be extended
	= Planning application site boundary

- Existing bridge link to be removed. Existing building facades to be made good as necessary.
- Existing shop front to be extended forward in-line with adjacent facade.
- New improved road surfacing to existing car park.
- Existing building facade to be altered, as per elevation and detail drawings.
- Existing car park structure to be retained. Existing balustrades to be removed and new full height metal mesh screening to be installed to existing openings.
- New entrance canopy to carpark
- Existing metal cladding and window frames to be retained and re-sprayed colour to match the new carpark cladding and glazing frames (colour to be agreed)
- Existing lift tower pitched roofs to be removed and replaced with new flat roof and perforated/mesh metal cladding to walls at high-level.

Existing plant room to be altered and new single-storey office extension installed to existing flat roof area.
