114. TACKLING CLIMATE CHANGE ROAD MAP

Cabinet considered the report of the Cabinet Member for Environment that set out the actions the City Council, their partners and Gloucester citizens can take to achieve the objectives of the Climate Change Emergency resolution as adopted in July 2019.

The Cabinet Member for Environment summarised the 'quick wins' in the appendix to the report. He noted that £1.4 million was to be allocated to Gloucestershire to address flooding in the Chancellor's Budget. The Cabinet Member for Environment announced that from April all electricity purchased to supply the City Council estate would derive from renewable sources. He commented that this represented a first major step in the Council's determination to tackle climate change. The Cabinet Member for Planning and Housing Strategy informed Members how useful he had found the Planning Policy Sub-Group in allowing specific issues to be concentrated upon and that he commended the proposal to follow this model for a cross-party working group (2.1.3). The Cabinet Member for Environment agreed that climate change was not a party-political issue and emphasised the need to take advantage of all ideas to tackle it.

RESOLVED that:

- (1) the report is noted as a roadmap to achieving a carbon net zero Council by 2030 and net zero city by 2050, and that officers continue the work outlined in this report to develop a Climate Change Strategy and bring this back to Cabinet for approval later in the year.
- (2) it supports investigating the projects contained in the 'quick win' section of the appendix, subject to Council agreeing to dedicate funds towards such environmental, carbon reduction or adaptation projects at its meeting on 27 February.
- (3) a cross-Party working group, along the lines of the Planning Policy Sub-Group, is set up to support and advise the lead Cabinet Member in the development of this strategy and to review the investigations of the various projects set out in the appendix to the report.

She further advised that it would ensure contractors focus on

CABINET

achieving the right outcomes for the needs of the city and its people. The Cabinet Member for Communities and Neighbourhoods commented that it would place Gloucester ahead of other councils and generate a long-term impact. She proposed an additional recommendation to those in the report that would give contractors additional capacity to deliver effectively. The Cabinet Member for Communities and Neighbourhoods noted that the policy could be in place from July, in time to ensure that that funds are targeted in some big contracts to produce great outcomes. The Cabinet Member for Environment stated that it was an opportunity to focus funds towards areas of deprivation. The Cabinet Member for Culture and Leisure informed members that he believed that the policy would be welcomed by the organisations the Council works with as they all bear a social responsibility. He highlighted the importance of the intention for the Social Value Toolkit to identify specific needs for each ward as some needs will be not be common across the city. The Managing Director clarified the financial and legal implications of the report (9.1, 10.1) by stating that the relevant services had been consulted. The Corporate Director confirmed that they had expressed no concerns. The Cabinet Member for Communities and Neighbourhoods advised Members that the subscription to the Social Value Portal was £12,000 per annum over three years or £15,000 year by year. She recommended the latter option and further advised that costs would be absorbed by existing budgets. The Cabinet Member for Planning and Housing Strategy expressed approval that the policy would both empower communities and build self-esteem within them. The Cabinet Member for Communities and Neighbourhoods placed it within the context of Gloucester's strong track record of achievement for communities which she stated were the achievements of the communities themselves. The Managing Director sought reassurance that a People Impact Assessment would not be required (12.2). The Head of Communities confirmed that it would not.

RESOLVED that:

- (1) the draft Social Value Policy be noted and it be agreed for a public consultation to begin
- (2) the creation of a Social Value Toolkit be approved, to be made available alongside the policy. This document will be made in collaboration with the community of Gloucester and will identify the specific needs for each ward of the City.
- (3) the procurement be approved of services from the Social Value Portal, who will provide support in the creation of a social value toolkit and support on all procurements meeting the criteria of the policy.

CABINET

Gateway and the Property Investment Strategy. He announced that 76% would be completed by May 2020 and 94% next year. The Leader of the Council stated that this demonstrated the ambition of the administration to make improvements and drive Gloucester towards a positive and sustainable future. The Cabinet Member for Performance and Resources reminded Members that the achievements went beyond physical regeneration and impacted people's lives for the better, not least due to the efforts of the Cabinet Member for Communities and Neighbourhoods. The Cabinet Member for Communities and Neighbourhoods contrasted the current position with that of ten years ago and commented that the positive progress needed to continue. The Cabinet Member for Planning and Housing Strategy attributed the success to both leadership and officers to whom he expressed gratitude.

RESOLVED that it is noted that progress with delivery of the Council Plan 2017-2020 is welcomed.

117. INCREASE IN PLAY PROVISION 2009 TO 2019

Cabinet considered the report of the Cabinet Member for Environment that updated Members on the increase in number and quality of play areas across the city.

The Cabinet Member for Environment advised Members that in 2006 there were only 36 play areas across the city in contrast to the 80 existing and in development today. He stated that he was enthused by this achievement despite a background of austerity and the benefits it gave to families and children. The Cabinet Member for Culture and Leisure commented that the report demonstrated how much can be achieved in difficult times and thanked officers for their hard work. The Cabinet Member for Communities and Neighbourhoods drew Members' attention to the transformation revealed by the photographs in the appendix to the report and stressed the importance of the contribution of play areas to improving health and addressing inequality. She expressed her own aspiration that Gloucester Park be transformed in the future acquires a flagship play area. The Cabinet Member for Environment reminded Members that much of the £2 million invested over the past decade had come from developers and Section 106 contributions extracted by the City Planners.

RESOLVED that the increase in number and quality of play areas across the city be noted.

The Cabinet Member for Culture and Leisure advised Members that although final sign off by HE was still awaited, indications were that it would be forthcoming and work to secure additional funding was ongoing. He noted that this approach had proved successful for the Southgate Street Townscape Heritage Initiative and will deliver a considerable improvement to the vibrancy of Westgate Street. The Cabinet Member for Environment commented that the proposed £3.8 million investment in Westgate Street's heritage assets was a step in the right direction between the recent improvements to Southgate Street and a future enhancement of Eastgate Street.

RESOLVED to:

The Cabinet Member for Planning and Housing Strategy reminded Members that meeting affordable housing needs required not just buildings but the right management so that people can be helped, their wellbeing improved and social value added. He emphasised the importance of ensuring that the right policies were in place to deliver the best for people who needed affordable housing. The Cabinet Member for Communities and Neighbourhoods referred to recent work done to drive up housing standards in Gloucester and commented on the serious consequences to people of having the wrong providers. The Cabinet Member for Communities and Neighbourhoods underlined how important it was to demonstrate the Council's progressive ambitions and that it would be an

CABINET

FOR GENERAL RELEASE

1.0 Purpose of Report

1.1 The purpose of this report is to seek approval for the proposed actions and priorities that are set out for the one year Council Plan extension in 2020-2021.

2.0 Recommendations

2.1 Cabinet is asked to **RECOMMEND** that the one year extension to the Council Plan and the priorities and actions outlined in Appendix 1 be approved.

2.2 Overview and Scrutiny Committee is asked to consider the information contained in the report and make any recommendations.

2.3 Council is asked to **RESOLVE** that the one year extension to the Council Plan and the priorities and actions outlined in Appendix 1 be approved.

3.0 Background and Key Issues

3.1 The current Council Plan was approved by Council in September 2017. It sets out the vision for the Council, its partners and residents to make Gloucester a ‘City that Works for Everyone’. The Plan lists the Council’s planned projects and activities between 2017 and 2020 in order to achieve its ambition of improving the lives of everyone who lives in, works in and visits Gloucester.

3.2 The Plan is structured into four priorities:

1. Working to create a vibrant and prosperous city
2. Working to maintain a safe and attractive city
3. Working to build strong and resilient communities
4. Working to provide great services that ensure value for money

- 3.3 A new Council Plan was due to be developed following the local elections in May 2020, however, the elections have been postponed to May 2021 in light of the COVID-19 pandemic. This has disrupted the usual Council Plan cycle, meaning there is a need for a one year extension to the 2016-2020 Council Plan to cover the period up to autumn 2021.
- 3.4 With this in mind, a set of priorities and actions has been developed. This includes initiatives that are ongoing and outstanding from the existing Council Plan. These initiatives are fundamental in providing a smooth and continuous service to the people of Gloucester, based on the four priorities listed above, during such an unpredictable time.
- 3.5 It also includes new initiatives and priorities that are deemed appropriate to be introduced at this time, as they will form the basis of future work and upcoming council projects.
- 3.6 These priorities and actions do not include a specific action on 'recovery' from the COVID-19 crisis, as this will be a core objective central to all of the council's actions over the coming months, and is still evolving. Therefore, the priorities and actions set out in Appendix 1 are focused on continuous and new service delivery going forward.

Council Plan Extension Priorities for 2020/2021

Priority 1: Working to create a vibrant and prosperous City

1. Develop a Major Projects Programme to programme and project manage the delivery of priority activity in the city. This includes the Kings Square/Quarter redevelopment, the sale and redevelopment of the Council's former offices (HKP), the redevelopment of the Fleece, St. Oswald's, and the development of the Barbican and Wessex House sites. All schemes to maximise the use of low carbon construction methods and energy production and minimise lifetime carbon costs.
2. Work with housing developers and Registered Providers to minimise the risk of not achieving our 2020/21 target of 718 new homes (180 affordable) as a result of COVID-19.
3. Develop a successful festivals & events programme, including a launch and sustainable programme for Kings Square, and improved coordination of a low-carbon impact festivals and events programme across the City
4. Seek clarity on the process and timescales for City of Culture and explore whether future candidate city status would complement and help drive the City's wider ambitions for culture, events and festivals, history and heritage, social and capital investment, digital and climate action.
5. Develop a clear vision for the Guildhall, Museum and Blackfriars; and a Gloucester Museums Development Plan to access funding streams and create a resilient service
6. Start implementing the digital strategy for the City, including proposals to repurpose the former UK:DRIC
7. Set up a new Place Marketing function

Priority 2: Working to maintain a safe and attractive City

8. Agree a climate change strategy and an action plan and commence its implementation
9. Open the new Robinswood Hill Visitor Centre

Priority 3: Working to build strong and resilient communities

10. Reduce homelessness (including street homelessness) through better prevention and more housing supply to generate more and better-quality temporary accommodation
11. Working with the Gloucester Community Building Collective CIC, further strengthen community building activity across all parts of the City
12. Adopt and implement a Social Value Policy
13. Work with partners to improve the health and wellbeing of our population, in particular through the development of the Blackbridge site
14. Develop ways and structures to harness and sustain the cross-city partnership working evident during the COVID-19 Pandemic to offer systemic accountability for the “State of the City”

Priority 4: Working to provide great services that ensure value for money

15. Continue with our ‘channel shift’ programme, enabling our transactional services to be accessible via the website and turning off the face to face channels where we can so that customers can access our services in a modern and efficient manner.
16. Identify commercial opportunities within the city’s Shopmobility service to ensure that the service remains accessible to residents and visitors but also more financially sustainable
17. Develop a commissioning programme for our larger contracts (2020 -2024/5), including the redesign of the waste and recycling service; our IT service; our Business Processing (Revenues and Benefits) service; and Leisure
