66. NOTICES OF MOTION

Notice of Motion from Councillor Haigh

66.1 Councillor Haigh moved and Councillor Derbyshire seconded the following motion:

“This Council has a responsibility to house young people leaving the care of the County Council who have a connection to Gloucester. The County Council supports care leavers until the age of 25 recognising that these young people often face extensive challenges for a variety of reasons and sometimes need extra support to assist them to transition to adulthood.

This Council recognises that we should also support them through their mistakes and provide guidance to help them make more positive choices in the future. Maintaining a stable home can be particularly difficult for care leavers and being deemed intentionally homeless can mean that they slip through the net of support.

This Council resolves to change our housing policy to ensure that no care leaver with a connection to Gloucester is classed as intentionally homeless and that they are always supported back into accommodation and to work with the County Council to help to maintain that tenancy.”

Notice of Motion from Councillor Stephens

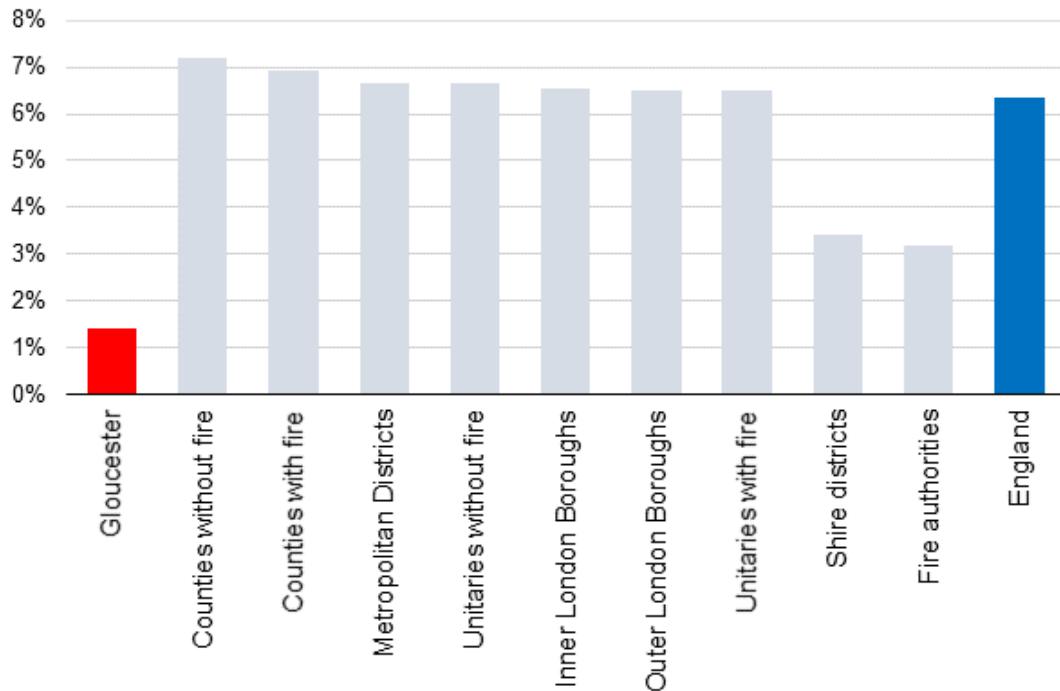

- 66.7 Councillor Stephens moved and Councillor Pullen seconded the following motion:

COUNCIL
30.01.20

“Council notes that the government has issued the provisional local government finance settlement for 2020/21.

Council further notes that the headline change for Gloucester is an increase of 1.4% in Core Spending Power and that without a one-off increase in New Homes Bonus Gloucester City Council would have again seen a negative change.

The chart below illustrates how we compare to other authorities and England as a whole.

Council is disappointed to note that we are well below the shire district average of 3.4% and significantly below England as a whole at 6.3%.

Historically Gloucester has received a bad deal from the government in terms of funding. The Centre for Cities 2019 outlook report set out the impact of austerity in the past decade; total spending in Gloucester has reduced by 23.4%, meaning the City ranks 9th in terms of total change. Gloucester is also the worst hit district council in the country.

The government produced Indices of Deprivation 2019 show that Gloucester has some of the most impoverished wards in the country. As an example, areas in Matson, Robinswood and White City ranks in the worst 0.1% nationally for some issues.

The level of need in the City is clearly not reflected in the provisional local government finance settlement when compared to other similar authorities and Gloucester residents are severely disadvantaged by this.

Council resolves to:

COUNCIL
30.01.20

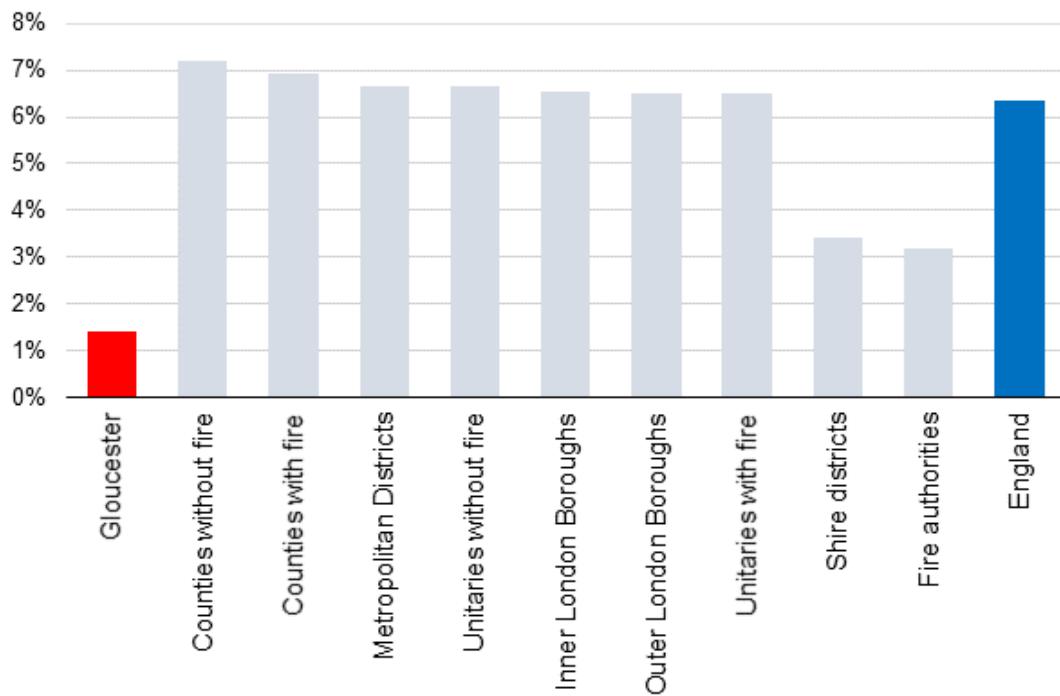

1. Make urgent representations to the Secretary of State for Housing, Communities and Local Government for a significant increase in funding for the City.
2. Seek the intervention of the City MP to lobby for a significant increase and fairer funding in the settlement available to Gloucester City Council.”

Council however welcomes that this authority has received £1.847 million in grant funding from government and organisations such as the Arts Council in the years 2017/2018 and 2018/2019 alone, in addition to £1.474 million in capital grant funding.

67. WRITTEN QUESTIONS TO CABINET MEMBERS

- 67.1 In relation to question four, Councillor Haigh asked Councillor Watkins if she would be approaching Restorative Gloucestershire to ensure it is highlighted and publicised. Councillor Watkins responded that Restorative Gloucestershire was there as a measure of last resort when anti-social behavior is particularly bad. Councillor Watkins pledged to speak to the Project Solace team to highlight it as a tool.
- 67.2 In relation to question nine, Councillor Field noted that, if cardboard becomes wet it would be almost worthless in terms of raising revenue from recycling. He asked Councillor Cook what could be done to improve the situation.
- 67.3 Councillor Cook replied that whilst its value was reduced, wet cardboard was not entirely without monetary value. Councillor Cook advised that there were holes at the bottom on the blue recycling bags for drainage and that the bags could be securely fastened with the Velcro provided at the top of each bag.
