

Chris

If I remember rightly he wants to trade from the footway.

From a highway point of view, this location is York stone and due to the material they are not suitable to be driven on or over and are very expensive to replace.

I am not happy for anything to be on these slabs, therefore no compromise is possible in this location.

Subject: Street trading application - The Oxbode

Hi both

As you are aware we have consulted on this application twice now.

Part of the process is to explore whether or not there are any options with regard to mediation.

So far you have both objected to the siting of a unit at this location following both consultations.

I am just exploring whether or not here is a compromise to be had.

The applicant is not looking to change times or days of the week but did offer a gazebo as a trading option rather than the unit that he originally applied to site.

Can you let me have your thoughts as soon as.

Many thanks

Chris
