

Good morning

For your information.

Following the second consultation and, in light of the additional representations received, I have contacted Gloucestershire Highways and the Principal Conservation Officer to enquire if there is a compromise to be had regarding your street trading application.

Both have replied and, as far as they are concerned there is no room for a compromise although the Principal Conservation Officer has suggested occasional permission for food festivals and the like but not on a regular basis or at the location applied for. The refusal of consent is unchanged and has triggered the appeal procedure as per our policy.

I have asked our Democratic Services Team to arrange a hearing as soon as is possible under the current circumstances.

I will contact you when I know anything further but it may be a case of waiting until the restrictions are eased and it is safe for a hearing to go ahead.

With regards

Chris Butler
