75.6 **RESOLVED that:** - The Pay Policy Statement 2021-22 be approved.

75.7 **RESOLVED that:** - The Annual Report of the Audit and Governance Committee be approved.

**76. PUBLIC QUESTION TIME (15 MINUTES)**

76.1 A Gloucester resident asked the following to Councillor Cook via Microsoft Teams:

“The park in Coney Hill has been left in a dilapidated state. The ramps are overgrown, the playpark is too small and the trees around it haven't been cut back. It took 4 months and several reports for fly tipping to be cleaned up. Would the council like to explain why these issues haven't been addressed?”

76.2 Councillor Cook thanked the resident for the question. He stated that the Council had not been able to find any reports in respect of fly tipping at Coney Hill park on their Focus system. He said that Focus was not working for some time, so an additional list of requests was kept by customer services, but there was no entry on this list either. He stated that the Council would need to know how the fly tipping was reported in order to investigate the matter further.

Councillor Cook stated that the playground inspector would report any fly tipping he saw in the vicinity of the play area directly to Amey, it wouldn't appear on the play equipment report sheet. He said that they had been issues in the past with residents throwing waste over their fences onto the Park and on more than one occasion, low risk inmates at Leyhill had been in and spent a day removing large quantities of rubbish.

He stated that he was not aware that there were any particular issues with the play equipment within the fenced toddler area, and that the Council carried out repairs when necessary. The last annual ROSPA inspection of the play area stated that the play area provided reasonable play value and activity. He stated that the Council was aware that the zip wire from the teen

**COUNCIL**  
**18.03.21**

area has been missing for some time, but that a replacement was being ordered.

The play facilities certainly met the criteria for a local play area, though they could fall slightly short of the criteria for a neighbourhood play area. Recently the Council had been concentrating on creating new play areas where there was a shortfall in provision and s106 money available, though consideration could be given to providing equipment for older children (e.g. a big climbing frame or space net) at Coney Hill if funding could be found.

The sides of the BMX track were cut biannually. The bikes kept the track free of vegetation but the grass on the banks was allowed to grow longer as part of the Council's low mow regime.

Councillor Cook stated that he was unsure what the reference to trees around the play area was referring to. There was a group of trees in the top right corner but they did not seem to be interfering with anything. The light green structure in the middle of the trees was the roof of the youth shelter, but that has now been moved to an area next to the BMX track.

The Housing Minister said in answer to a written parliamentary question that the new AHP, due to run from this year till 2026, would deliver roughly 32,000 social rent homes outside of London. He said that this would double the amount of social rent homes funded when compared with the current programme.

**COUNCIL**  
**18.03.21**

“Gloucester City Council and Gloucester City Homes own a number of garages across the city. There is currently a waiting list for the garages with residents having to wait many months or even years before being offered one. Many of the garages need significant repairs and are currently unable to be let because of this.

Garages are a useful asset and if used not only generate income but also provide a valued amenity for residents taking cars off the road, easing congestion, and freeing up on-street car parking spaces.

Council resolves:

1. To carry out an audit of all garages owned by both the council and Gloucester City Homes, detailing whether they are empty or vacant and the level of disrepair.
2. To introduce a comprehensive programme of refurbishment of the garages to bring them back into use.
3. To investigate alternative uses for the sites e.g., housing where the sites are considered unviable.
4. That a report be presented to Cabinet within 6 months setting out the result of the audit and a comprehensive action plan.”

“This council records its disappointment with the Conservative administration over its dreadful record in keeping our streets and open spaces clear of litter and fly tipping.

Our litter bins are often left overflowing for far too long, because there are not enough litter bins and they are often emptied too infrequently.

Many of our open spaces and streets are blighted by litter that isn't cleared by our streetcare contractor unless councillors or members of the public personally report it.

**COUNCIL  
18.03.21**

This council notes that Ubico will take over the streetcare contract from Amey on 1st April 2022.

That both Ubico and Urbaser quoted for improved response times for dealing with deteriorations in cleansing standards.

We therefore call on the cabinet to carry out a root and branch review (in discussion with Amey and Ubico) of our litter bin provision and emptying regime to also include a review of the litter picking schedule of our public spaces, with the view of proposing a dramatic improvement in service delivery as a matter of urgency.”

88.15 Councillor Cook proposed and Councillor Patel seconded the following amendment.

~~“This council records its disappointment with the Conservative administration over its dreadful record in keeping our streets and open spaces clear of litter and flytipping~~ **acknowledges that flytipping and littering has increased nationally since the initial lockdown for the Covid-19 pandemic in March 2020. This has put added pressure on our waste contractor, Amey, 3GS and council staff engaged in the enforcement of enviro-crime.**

**This council welcomes the recent award of £25,000 by WRAP to support the delivery of our litter strategy which is identified by WRAP as an exemplar of best practice.**

**The implementation of this Strategy will include replacing old dog and litter bins and ensuring a consistent standard across the City.**

released to the Blackbridge Community Land Trust. In response Councillor Morgan replied that he would respond to Councillor Field with a specific answer in due course.

- 89.2 In respect of question 3, Councillor Field asked the Leader of the Council whether the new style bins that were to be installed would be direct replacements for existing bins. Councillor Cook stated that his understanding was that there would be new bins in the City Centre and old bins that were capable of being reused would be so elsewhere, with the aim of improving the bin provision in the City.
- 89.3 In respect of question 18 Councillor J. Brown asked the Cabinet Member for Communities and Neighbourhoods what consideration would be given to the placement of new defibrillators within the City where they would be accessible to the Community, 24/7. In response, Councillor Watkins replied by stating that unfortunately, owing to the Coronavirus Pandemic, the work regarding the installment of defibrillators within the City had been delayed but that they had pledged to take the work to install accessible defibrillators forward.
- 89.4 In respect of question 20, Councillor D. Brown asked the Cabinet Member for Economic Recovery and Growth whether the figures for air quality monitoring could be circulated to him. In response, Councillor Melvin noted that the Policy & Governance Manager had circulated the figures he referred to but that she would be happy to recirculate the figures.
- 89.5 In respect of question 21, Councillor D. Brown expressed his disappointment in the answer. He asked the Cabinet Member for Economic Recovery and Growth whether there was a plan to use new technology to measure what pollutants were in the atmosphere.
