Gloucester City Plan Additional Modifications accepted as part of the submitted plan

The Additional Modifications are those accepted by the Gloucester City Plan Inspector as part of the submitted plan (Examination Document CD010e), where not amended by any subsequent Main Modification.

They are expressed either in the conventional tracked-changes form of strikethrough for deletions and <u>underlining</u> for additions of text. In the interests of being succinct, only those paragraphs that have been amended are shown within this schedule, i.e. unchanged text paragraphs will not be shown below. Main Modifications are also shown where they are contained within the specific paragraph; further details are available in the Main Modification schedule.

signage, and general clutter. Many retail units stand vacant. Locals
perceive the area in a negative light and of the thousands of visitors
to the cathedral, few are attracted into Westgate Street.
The Heritage Action Zone will capitalise on Westgate's untapped
potential and boost the number of people living, working and taking
pride in the area. The award of up to £1.9m to Gloucester City Council
will invest in Westgate Street's beautiful historic buildings, repairing
buildings and historic shopfronts and converting vacant upper floors
for new uses. There will be advice and support for businesses in
historic properties, and the streetscape will be improved with new
signage and branding. The area will be vibrant with cultural activities,
from community archaeology to performing arts, and will become
known for its attractive evening and night-time offer. The Heritage
Action Zone will help Westgate thrive again by bringing a modern
business approach to an outstanding historic environment.
The JCC and CCD have a strong role in delivering the size and
The JCS and GCP have a strong role in delivering the aims and
objectives of the HS and Cathedral Quarter HZAZ. The policies that
follow in this section quite obviously have a direct link in that they
seek to conserve and enhance the historic environment. However,
the HS is a golden thread that has informed and will be delivered by
different policies, including for example Policy A1, which supports the
reuse of vacant floors above commercial units to support the reuse of
historic buildings and repopulation of the city centre. There are also
important implications for some of the site allocations, particularly
SA08 King's Quarter, SA10 Former Fleece Hotel & Longsmith Street
Car Park and SA21 Park of West Quay, The Docks.
