FOR GENERAL RELEASE

1.0 Purpose of Report

- 1.1 The CIPFA (Chartered Institute of Public Finance and Accountancy) Code of Practice for Treasury Management recommends that members be updated on treasury management activities regularly (TMSS, annual and midyear reports). This report covers the six months 1st April 2022 to 30th September 2022 and therefore, ensures this Council is implementing best practice in accordance with the Code.
- 1.2 This report will highlight issues specific to the Council and also highlight interest rate forecasts as provided by the Council's treasury advisors Link Asset Services.
- 1.3 The body of the report provides an overview of the Council's performance for the first half 2022/23;
 - **Appendix 1** highlights the key performance indicators in line with the Council's Treasury Management Strategy.
 - **Appendix 2** Interest Rate Forecast.

2.0 Recommendations

- 2.1 Audit and Governance Committee is asked, subject to any recommendations it wishes to make to Cabinet, to note the contents of the report.
- 2.2 Cabinet is asked to **RESOLVE** that the contents of the report be noted.

3.0 Annual Investment Strategy

The Treasury Management Strategy Statement (TMSS) for 2022/23, which includes the Annual Investment Strategy, was approved by the Council on 24th March 2022. It sets out the Council's investment priorities as being:

- Security of capital;
- Liquidity; and
- Yield

- 3.1 The Council will aim to achieve the optimum return (yield) on its investments commensurate with proper levels of security and liquidity and with the Council's risk appetite. In the current economic climate it is considered appropriate to keep investments short term to cover cash flow needs, but also to seek out value available in periods up to 12 months, with highly credit rated financial institutions, using our suggested creditworthiness approach, including a minimum sovereign credit rating, and Credit Default Swap (CDS) overlay information.
- 3.2 As shown by the interest rate forecasts in appendix 2, rates have improved dramatically during the first half of 2022/23 and are expected to improve further as Bank Rate continues to increase over the few.
- 3.3 The average level of funds available for investment purposes during the year to date was £11.2m. These funds were available on a temporary basis, and the level of funds available was mainly dependent on the timing of precept payments, receipt of grants and progress on the Capital Programme.
- 3.4 The Council holds £16.7m core cash balances for investment purposes (i.e. funds available for more than one year), the majority of these funds are held with the CCLA and have delivered £185k in dividends for the first six months of the year.

5.0 Debt Rescheduling

- 5.1 Debt rescheduling opportunities have increased significantly in the current quarter where gilt yields, which underpin PWLB rates and market loans, have risen materially. Members will be advised if there is value to be had by rescheduling or repaying a part of the debt.

6.0 Compliance with Treasury and Prudential Limits

- 6.1 It is a statutory duty for the Council to determine and keep under review the affordable borrowing limits. The Council's approved Treasury and Prudential Indicators (affordability limits) are included in the approved TMSS.
- 6.2 During the financial year the Council has operated within the treasury limits set out in the Council's Treasury Management Strategy Statement and in compliance with the Council's Treasury Management Practices.

7.0 Other

- 7.1 The 2021 CIPFA Codes and guidance notes have placed enhanced importance on risk management. Where an authority changes its risk appetite e.g., for moving surplus cash into or out of certain types of investment funds or other types of investment instruments, this change in risk appetite and policy should be brought to members' attention in treasury management update.
